

COMMUNITY COLLEGE OF ALLEGHENY COUNTY  
PURCHASING DEPARTMENT  
800 ALLEGHENY AVENUE, PITTSBURGH, PA 15233

**ADDENDUM 1**  
**BID PROPOSAL NO. 1138**  
**EMERGENCY EGRESS LIGHTING MODIFICATIONS – BOYCE CAMPUS**  
**MARCH 20, 2025**

The following additional information is hereby made a part of this bid:

\*\*\*\*\*

Various questions and answers:

1. Please provide start and duration of this project.  
**Estimated start date: May 27, 2025. Work to proceed five days per week for an estimated 8-week duration.**
2. What will be the working hours of this project? **6am-4pm**
3. Drawing E.O.01 general electrical Note #5 states that MC cable is acceptable, yet the specs are only calling for a maximum of a 6' whip. Note # 17 is stating that all 20amp circuits must be in ¾ conduit. Can you please confirm which is correct and acceptable method of installation for this project?  
**MC Cable will be an acceptable wiring method where the cable is concealed above acoustical ceiling/ gyp. ceiling or vertically in a wall. MC cable may not be used where exposed or where code prohibits use of MC cable.**
4. Will there be a laydown area for storage of materials or will we be able to use a Conex container on site? **Conex container to secure materials**
5. Will there be a need for a job trailer for this project and if so will there be a place to get temporary power? **There should be no need for one**
6. Is there a freight elevator that can be used for moving materials or can we utilize the existing elevator? **We don't have a freight elevator but you can utilize the passenger elevator if the walls are protected.**

**End of Addendum 1**
