

# Writing Center Tutoring Services

---

**The PennWest Writing Centers are open to all students, staff, and faculty for assistance with writing for a variety of courses and purposes.**

We provide guidance as collaborators in the writing process and will teach you strategies for composing clear writing in all academic areas, especially in developing, revising, and editing your papers. Since our purpose is to help you to become an independent writer, we do not simply correct errors or rewrite your work; instead, we teach you critical strategies that you can use to compose effective written papers.
